M'GRAW ASKS RECRUITS GOLFERS WILL DO

Things on Earth.

New York June 2—"Pans" and ball players will be in the forefront of this wax, which is a fight for personal "Program of Canata, edicated that all clinks join in the "liberty tournament," to be best on a shear of the Canata, edicated that the gotters are ready and willness to the their often are ready and the common of the program of the Canata, edicated that all clinks join in the "liberty tournament," to be best on a shear of the Canata, edicated that all clinks join in the "liberty tournament," to be best on a place of the program of the common and clarks. He said to their the same time that clinks join in the "liberty tournament," the program of the common and clarks. He said the foundation of the program of Canata, edicated that the gotters are ready and will be related to the program of the progra

soling to enlist now mustic like the ails, may be a second the control of all a for the local solf early and states. I thank the control of the local solf early are in the fact that good and he had been solded as a second of the local solf early the local solf early the second of the local solf early the local solf

sociation has secured the co-operation of the American Red Cross which have consented to present a souvenir medal to each club in the United States holding this tournament. This will be in addition to the certificates awarded by the United States Golf Association. "It is planned to make the Fourth of July event a nation-wide patriotic testimonial by the golfers of America, and it is to be hoped that the occasion will be seized by every member of a golf club in the country, whether afflicated with the U. S. G. A. or not, to participate in so worthy an object.

"Many clubs have already arranged some event for the benefit of the Red Cross. It is not desired to interfere with any of these but, so far as possible, none of them should be allowed to diminish in any way the chances of making the "Liberty Tournament" as pronounced and thrilling a success as it deserves to be."

As soon as "Lou" Doyle and "Al" Howard can get together, the rankinglist of local tennis players for last year will be released. The Washington Tennis Association has appointed these two and Edward W. Donn, ir., as a committee to 'st up this lirt and Donn and Doyle I are agreed and have submitted the r suits of their labors to Howard, who so far has not had a chance to take the matter up.

Arthur Shelton got his name in the

Arthur Shelton got his name in the Columbia Country Club's "Hall of Fame" last week when he made the 194 yard eighth hole (par 3) in one stroke. The ball landed on the green and kicked straight to the pin. Dan Jackson also did some exceptional work on the third hole last Saturday. He got in two traps but made wonderful cuts from each of them, his second laying his ball dead and enabling him to get a 3. This hole is a par 4 one, 379 yards in length.

The Columbia Country Club is doing all in its power to encourage its members to "do their bit" in the present ware emergency, and at the last meeting of the board of Sovernors passed two resolutions along these lines. One exempts from the payment of dues any members of the Club while they are he actual services with the military or naval forces, while the other requests each member to contribute 25 cents a month for one year to the Washington chapt rot the American Red Cross. This last resolution, if followed by all members, will raise a sum in the reighborhood of \$2,000.

THEIR LITTLE BIT

Indians Release Miller,
Cleveland, Ohio, June 2.—R. P. Miller,
utility infield player, has been released
outright by the Cleveland American
League club to the Oakland club of the
Pacific Coast League.

CHICAGO GRAIN MARKET.

CHICAGO GRAIN MARKET.

Chicago, June 2.—There was war-time market in the wheat pit on the Board of Trade today. The price changes were most sensational, July ranging between 1.59 and 2.39 and September between 1.53 and 1.29. The prices failed to hold, as closings were at 2.60 for July and 1.21 for September. Resting spots on Friday were 1.68 and 1.82, respectively. Shorts in their endeavor to cover bid prices up without securing any grain to speak of, as there were no offerings were here and there until the highest levels were reached.

From all sections of both great wheat belts weather conditions are reported as excellent, and the plant is displaying greater strength than at any time since it was seeded.

The corn market was a big one and a most important one. Prices showed advances of 1% to 3% cents on heavy buying by Eastern speculators, who believe that corn is a good property, and they continue to invest in it. The shortage in this market is a big one, although shorts have bought freely for some time past, especially on the recent low prices established.

There was a big trade in oats along with the activity in corn, but the advances were confined to narrower limits.

The business in the market for hog products was alow, but they held up fairly well in sympathy with the price of grain. Lard was relatively easier than ribs and pork, but there was some further readjustment of the two products.

COTTON MARKETS.

New York, June 2.—Apprehension over the foreign-political situation caused heavy selling of cotton-today and the market weakened after it had been established at fresh high records, following loses in the initial trading. First prices showed declines of 5 to 10 points, with the tone barely steady due to active realising, in-cluding Southern interests. The offerings were ab-sorbed quickly with trade and outside interests in connectition for contracts and the movement to buy

EX-SENATOR WARRER MILLER

The Man Who First Made a Success of Manufacturing PAPER PULP FROM WOOD

Has Become President of

Sugar Cane By-Products Co.

having purchased an extensive interest in our Company. Senator Miller was the first man to make a success of manufacturing PAPER PULP from WOOD in the United States. He organized and is ex-President of the Hudson River Pulp and Paper Co.; was one of the original organizers of the International Paper Co., and is ex-Secretary of that corporation. Nobody in the United States knows more about making paper pulp and paper, nor does any one recognize more keenly than Senator Miller the absolute necessity of producing something to make up for the scarcity of suitable timber for paper pulp making. After six months of careful investigation into the general condition as well as a searching examination of all our affairs, he decided to ally himself with us, and purchased an extensive holding in our

BECAUSE HE KNOWS OUR PATENT PROCESSES FOR MAKING PAPER PULP OUT OF SUGAR CANE BAGASSE

ARE THE ANSWER TO THE INSUFFICIENT SUP-PLY OF GOOD PULP AND THAT WE HAVE A COM-PANY THAT SHOULD EARN MANY MILLIONS OF DOLLARS IN DIVIDENDS FOR ITS STOCKHOLDERS.

After Senator Miller invested his money in our Company we asked him to become our President. He accepted the offer. This means that the affairs of this Company will have his personal attention and we get the benefit of his wonderful knowledge and his experience in paper pulp and paper manufacture. No man could give us better advice nor bring greater practical knowledge to bear on our opera-tions. And there is no man whose approval of our plans, processes and organization is of such far-reaching im-

At the Special Request of Senator Miller, as Soon as He Became President of Our Company, We Have Extended for a Limited Period the Opportunity to Buy Our

We have all necessary machinery purchased and will soon be turning our fine paper pulp at our first mill at New Iberia, Louisiana, which is designed to handle 300 tons of raw material per day.

Fifty mills like this could be operated without using all the raw material available nor making enough of our products to supply the demand. The enormous possibilities of our Company in its future relation to the paper manufacturing industry are set forth in a signed statement by President Warner Miller. Send for your copy at once.
